BUTTERFAT KETO

Butterfat keto is a unique blend of coconut sourced MCT powder containing C8 medium chain triglycerides with deliciously creamy organic ghee and butter from grass-fed, pasture-raised herds plus heat stable spore-forming *Bacillus coagulans* and *Bacillus subtilis*. Unlike other fats, MCT gets burned for fuel rather than stored as fat.

POPULAR WITH:

- Paleo and ketogenic diets
- Intermittent fasting strategies
- Low carb, high fat diets (LCHF)
- Sports and endurance athletes
- Weight management strategies
- As an alternative to in-between meal snacks

NEUTRIENT BUTTERFAT KETO

- ✓ 4g (40%) C8 MCT for effective ketogenic support
- ✓ Organic ghee and butter for luxury creamy taste
- ✓ 300 million cfu *B.coagulans* and *B.subtilis* spores
- ✓ Heat-stable microbiome spores perfect for hot drinks
- ✓ Acacia gum fibre a food source for gut microbes
- ✓ Resistant maltodextrin a food source for gut microbes
- ✓ Neutral taste for adding to coffee, tea or smoothies
- ✓ No additives, sweeteners, flavourings
- ✓ 2-year shelf life, recyclable packaging

FAST • POTENT • EFFECTIVE

RRP £39.98 €47.98 (300g)

CODE: BFK300

INGREDIENTS: MCT, butter (milk), coconut oil, milk protein, resistant maltodextrin, acacia gum, *Bacillus coagulans*, *Bacillus subtilis*.

DOES NOT CONTAIN: Sugar, gluten, soy, palm oil

COCONUT
MCT

MAXIMISED ABSORPTION

MCT bypasses digestion, is rapidly absorbed into the bloodstream, heads straight to the liver and gets quickly converted into ketones, a powerful fuel for body and brain cells. Unlike other triglycerides, MCT gains rapid access into the mitochondria without the assistance of carnitine.

KEY NUTRITION APPLICATIONS

Medium chain triglycerides help provide key nutrition for:

- a delicious morning keto coffee or tea experience
- ketone production to fuel body and brain cells
- nourishment during intermittent fasting
- supporting satiety and curbing cravings
- supporting weight management strategies
